

Christopher M. Padgett

Please return this rider to Chris Padgett / 291 Belleview Blvd. / Steubenville, Ohio 43952

Technical Rider for Back Line Gear

In order for Chris to perform, he is in need of one piano, which is “in tune.” A baby grand piano, or a grand piano is preferable for best performance. A keyboard will work; as long as it is weighted with sustain pedal and full keys (88).

The piano may need to be amplified, depending on the crowd. I will need a boom-stand with a microphone, in order to sing and play. An additional microphone with a straight stand is needed for my acoustic guitar, plus a microphone for vocals.

If coming with back-up band for Chris’ music, the following is also required:

Guitar

- Marshall 50 or 100 watt JCM 800 or better head.
 - Or, 100-Watt Mesa Boogie head.
- Marshall or Mesa Boogie 4 by 12 cabinet.
- All power & speaker cables necessary.

Bass

- Ampeg, Eden, or SWR 300-Watt Amp or better.
- Ampeg, Eden, or SWR 4 by 10 bass cabinet.
- All power and speaker cables necessary.

Drums

- Yamaha, Premier, or DW drum kits are best for professional sound.
- Please provide at least a 5-piece kit.
- 1 High Hat stand, two crash stands, and 1 ride stand.
- Cymbals can be either Sabian or Zildian cymbals.
- 1 Pair of High Hats, 2 crash’s (16 & 18 in.), 20 inch Ride.
- The drum heads must be in good condition and must sound professional.
- Bass drum pedal and drum throne must be provided also.

I have read and understand these requests, and will comply.
